

**ASX ANNOUNCEMENT**

**25 August 2015**

## **Correction to “Quarterly Activities Report for April – June 2015”**

Focus Minerals Ltd advises a correction to the quarterly activities report released on 29 July 2015. Due to a date cut-off error, the first paragraph of the Laverton Gold Project summary stated that 176 holes were drilled across the Laverton Gold Project for 7,313m. In fact, the aircore drilling program referred to was not completed until 14 July 2015. Of the total 173 holes and 7,191m drilled for that program, 60 holes for 3,410m were drilled during the June quarter.

Neither the cash flow statement for the quarter nor any drilling results have changed, this update relates to timing only.

The corrected paragraph is repeated in full below:

### **Laverton Gold Project**

During the quarter, 60 holes were drilled across the Laverton Gold Project for 3,410m. In addition to the drilling, two separate airborne and ground electrical geophysical surveys were completed.
